

Assured Healing, Improved Joint Mobility

+

ANTIOXIDANT Supple Support

- Arthritic injuries
- Osteoarthritis
- Flexible Joint
- Cartilage Repair
- Accidental injuries
- Convalescence after orthopaedic surgeries

Tablets

Baicalensis and Acacia Catechu 250 mg, Glucosamine Sulphate 500 mg, Chondroitin Sulphate 100 mg, Methylsulfonylmethane 250 mg, Vitamin D3 400 IU

Baicalensis and Acacia Catechu

- Alleviate Joint discomfort, reduce stiffness, and improve mobility

Documented PROVEN Synergy

Chondroitin & Glucosamine

- Extend synergistic **CHONDROPROTECTIVE** effect at both the intracellular & extracellular levels in **OSTEOARTHRITIS** - the most common age-related rheumatic disease.

Sci Rep. 2014 Jun 10;4:5069.

Chondrocytes - mediate cartilage destruction and extracellular matrix breakdown

- Control all aspects of synovial inflammation Semin Arthritis Rheum. 2014 Apr;43(5):579-87.

Glucosamine + MSM

Provides better and more rapid improvement in patients with osteoarthritis

- Produce better efficacy analgesic and anti-inflammatory effect in osteoarthritis
- Improve functional ability of joints than the individual agents
- Well tolerated
- Onset of analgesic and anti-inflammatory activity- more rapid with the combination

Clin Drug Investig. 2004;24(6):353-63.

Vit D3, Calcium Ascorbate, Selenium, Zinc, Magnesium, Chromium, Boron, Silicon

- Skeletal Nutrition, for Easy Nutrient assimilability, Bone Formation, Remodelling, Strength & Easy Functionality
- Calcium with boron contribute to bone health by controlling the inflammation associated with loss of bone mineral density
- Chromium picolinate controls Anabolic effects of insulin on bone & helps in preservation of bone density

Biol Trace Elem Res. 2013 Dec;155(3):315-21.

& also helps improve concentration of calcium in bones Med Hypotheses. 1995 Sep;45(3):241-6, Hum Exp Toxicol. 2006 Jun;25(6):311-8.

Assured Painless Comfort of Flexing & Stretching All Joints
